SUMMARY

Computer Science graduate with experience in Java backend development, Spring Boot, REST APIs, and database-driven applications. Familiar with cloud deployments, Docker, and building maintainable backend systems.

TECHNICAL SKILLS

- **Languages:** Java, SQL
- **Backend & Frameworks:** Spring Boot, Hibernate, JDBC, REST APIs
- **Frontend:** HTML, Css, JavaScript
- **Databases:** MySQL, PostgreSQL
- **Tools & Platforms:** GitHub, Gradle, Linux, VS Code

EXPERIENCE

Machine Learning Intern — Advansphere (Remote)

Nov 2024 – Jan 2025

- Processed and cleaned structured datasets from multiple sources using data validation techniques
- Assisted in identifying inconsistencies and improving data quality across multiple datasets
- Collaborated with team members to debug data pipelines and improve workflow efficiency
- Documented preprocessing steps and contributed to maintaining reproducible data handling practices

PROJECTS

Banking Application

Spring Boot, Hibernate, MySQL

- Developed a banking backend system supporting account creation, deposits, withdrawals, and fund transfers
- Built RESTful APIs for transaction and account management using Spring Boot
- Integrated Hibernate ORM for database interaction and entity mapping
- Designed database schema for customer accounts and transaction records
- Implemented validation and exception handling for secure operations

Exam Management System

Java, JDBC, MySQL, HTML, CSS, JavaScript

- Developed an exam management system to manage student records, exam schedules, and result processing
- Implemented CRUD operations using JDBC for efficient interaction with MySQL database
- Designed database schema for students, exams, subjects, and result records
- Built responsive frontend interfaces using HTML, CSS, and JavaScript for student and admin operations

Employee Management System

Java, PostgreSQL, Hibernate

- Developed an employee management system to handle employee records, roles, and departmental data
- Implemented ORM for mapping Java objects to PostgreSQL database tables
- Implemented features for adding, updating, deleting, and searching employee details
- Designed robust database schema ensuring data integrity and consistency across operations
- Added input validation and error handling to maintain reliable and consistent data operations

EDUCATION

SVPM's College of Engineering, Baramati, Pune

2021 – 2025

Bachelor of Engineering in Computer Science

CGPA: 7.4 / 10

CERTIFICATIONS

- **Java Full-stack Development Course** – VibrantMinds Technologies Pvt. Ltd.
